No Tree Grows to the Sky

- DoD expects relatively flat budgets over the FYDP.
- SecDec Esper has targeted the “Fourth Estate” to reduce overhead.
- SecDef proposed cutting procurement of 5 Arleigh Burke destroyers and the retirement an additional 4 Ticonderoga-class cruisers by 2025.
- The Army’s recently proposed cuts, delays, or cancellations in almost 200 programs to free up resources for new initiatives.
- The upcoming 2021 – 2026 FYDP is likely to follow the Army’s lead.

The Outlook

The Good Place

- **Trade tensions moderate** with the Phase I deal.
- The Boeing **737 – Max reenters production** in the 2nd half of 2020.
- The **Coronavirus mirrors the SARS outbreak**, with limited global mortality.
- **Global growth accelerates** in the second half of 2020.
- **Equity and real estate markets cool**, but do not have major corrections.
- The Presidential election does not significantly impact economic activity.

The Not-So-Good Place

- The **Phase I deal falls apart** before it begins, leading to new tariffs.
- The **Boeing 737 – Max remains out of service** for 2020.
- **Global growth continues to slow** as international trade volumes decline.
- **Equity and real estate markets pull back** after a decade of increases.
- The Coronavirus outbreak trends **toward the 1918 influenza pandemic**.
- A Presidential nominee emerges and surges to a lead in the polls with promises of a significant expansion of government programs and taxes.

- **Good news:** Increases in defense spending in FY 20 will help **raise economic growth**.
- **An immediate challenge:** Finding the **right labor at the right time** for employers. **The long-term challenge:** **Labor force participation rates** have not recovered; difficulty moving disaffected back into workforce.
- **The opportunity:** **Improving collaborative efforts among cities** to retain/attract businesses while defense spending is increasing.
- **Position Hampton Roads now to win in the coming BRAC round.**

For example rate used for 2015 is 3.85 percent; for 2016 it is 3.65 percent; for 2017 it is 4.00 percent; for 2018 it is 4.54 percent and for 2019 it is 3.93 percent

Observations on the Existing Homes Market since 2011

- Inventories continue to decrease.
- Days on market have also decreased.
- Number of homes sold has steadily increased.
- Estimated months of supply have declined substantially.
- Mortgage rates continue to be at historically low levels.
- Distressed Sales Market appears to be clearing.
- **As a result expect median home prices to increase at a faster pace in 2020.**

2020: Accelerating Growth in Hampton Roads

- Regional GDP growth in 2020 is forecasted to be greater than the growth observed in 2019 and 2018.
- **Defense**, port, health-care industries, and tourism are likely to help the region's moderate economic expansion in 2020.
- Single-family home prices in 2020 are likely to increase at a moderate pace. Months of supply of existing homes are lower than their historic average and the distressed housing market segment appears to be clearing.
- Going forward, uncertainty in Washington will continue to be a major concern.
